## DP1400

### MOTOTRBO™ DP1400 Portable Two-Way Radio VHF Model

Simple and efficient, the affordable DP1400 portable two-way radio offers great voice communication for your business.

The Motorola Solutions DP1400 is the entry-level radio which is packed with features you would expect on higher-end equipment. As part of the MOTOTRBO family of radios, the DP1400 has superior audio quality, outstanding coverage, long-lasting battery life and more.

The DP1400 features 32 channels, allowing you to create more targeted communications for the different functions within your workforce. The radio's ergonomic design gives users access to all the controls even when wearing gloves, while the two programmable buttons and a wide selection of accessories allow many customisation options for every user.

The DP1400 is your lifeline in critical communications which means it must be built for the toughest situations. Motorola Solutions tests the DP1400 to MIL-STD-810 to ensure it is built for the job. In addition to the standards testing, we also perform our unique Accelerated Life Testing (ALT) so you can be confident your radio will stand up to many years of use in the field.

Whatever your needs, the DP1400 provides a simple, reliable, cost-effective communication solution to help work teams connect, coordinate and collaborate to get the job done right. By combining the latest analogue and digital two-way radio technology, the DP1400 is perfect for the everyday user who wants to stay connected.

### DP1400

#### MOTOTRBO™ DP1400 Portable Two-Way Radio UHF Analog Bulk Model

Simple and efficient, the affordable DP1400 portable two-way radio offers great voice communication for your business.

The Motorola Solutions DP1400 is the entry-level radio which is packed with features you would expect on higher-end equipment. As part of the MOTOTRBO family of radios, the DP1400 has superior audio quality, outstanding coverage, long-lasting battery life and more.

The DP1400 features 32 channels, allowing you to create more targeted communications for the different functions within your workforce. The radio's ergonomic design gives users access to all the controls even when wearing gloves, while the two programmable buttons and a wide selection of accessories allow many customisation options for every user.

The DP1400 is your lifeline in critical communications which means it must be built for the toughest situations. Motorola Solutions tests the DP1400 to MIL-STD-810 to ensure it is built for the job. In addition to the standards testing, we also perform our unique Accelerated Life Testing (ALT) so you can be confident your radio will stand up to many years of use in the field.

Whatever your needs, the DP1400 provides a simple, reliable, cost-effective communication solution to help work teams connect, coordinate and collaborate to get the job done right. By combining the latest analogue and digital two-way radio technology, the DP1400 is perfect for the everyday user who wants to stay connected.
