

BASE STATIONS & REPEATERS

SLR 1000

SLR 1000 Repeater 10W VHF (136-174 MHz)

Using the SLR 1000 repeater, you can easily extend the range of your network through dead zones and across remote locations, so everyone's within reach. Deploy the SLR 1000 indoors or out—it's IP65-rated for dust and water protection.

Keeping your team connected requires uninterrupted radio coverage. Using the SLR 1000 repeater, you can easily extend the range of your network through dead zones and across remote locations, so everyone's within reach. Deploy the SLR 1000 indoors or out—it's IP65-rated for dust and water protection. The compact size gives you more installation options. And a low power, fanless design uses less space and energy.

BASE STATIONS & REPEATERS

SLR 5500

SLR 5500 Repeater 50W VHF (136-174 MHz)

The MOTOTRBO SLR 5000 Series Repeater delivers high performance, high reliability two-way radio service with all the features you need to connect your workplace whether you're in the field or on the factory floor.

For your business to be successful, you need dependable voice and data communications that reach every corner of your operations. The MOTOTRBO SLR 5000 Series Repeater delivers high performance, high reliability two-way radio service with all the features you need to connect your workplace whether you're in the field or on the factory floor.

With its sleek form factor and low power consumption, the MOTOTRBO SLR 5000 Series is engineered for low cost of ownership. And with a huge leap forward in technology, it represents the next generation in repeaters as the cornerstone of a MOTOTRBO professional two-way radio system. Whether you need the simplicity of a single site conventional system, or the powerful trunking capabilities of Capacity Plus, Linked Capacity Plus or Connect Plus, the SLR 5000 Series delivers the power of digital two-way radio to your workforce.
